Notes and sources

Source basis and warranty conditions

Prices are retail references per battery. Net prices exclude VAT; EUR gross prices include Croatian VAT at 25%. Delivery, availability and the final quotation remain on request.

LIONTRON, AMPSTAR, RimDrive and Perfektium prices retain the reviewed supplier price-list basis. ECTIVE and Panther prices convert source gross prices using the existing assumed 20% source VAT, then apply 25% Croatian VAT. Confirm that source-tax assumption before a binding quotation.

SulMate current prices are taken from the owner-supplied product-card image: €648 / €972 / €1,242 / €2,511 excluding VAT. All SulMate references have a 10-year UnLucky warranty.

Previously unconfirmed warranties are 1 year from UnLucky. Confirmed manufacturer periods remain subject to the listed conditions. ECTIVE LC S LT terms are consumer terms and exclude commercial use. Asterisks on 5-year ECTIVE periods indicate series-policy evidence.

LIONTRON 660 Ah has a 5-year warranty, extendable to 10 years with qualifying registration. LIONTRON rack storage uses depreciated-value terms. RimDrive 3400/6800/13600 Wh: 2 years private use and 1 year commercial use.

References are not a stock count. Exact variants and possible aliases remain separate. Six historical SulMate codes and the unmatched Perfektium promotional code appear only in the appendix.
